SOCIAL EVENTS

Social events play a major role at Hanslab. We acknowledge the balance between “work” and “play” and the staff is encouraged to make the most of the events afforded to them. 2018 events included a Womens Day High Tea, monthly staff braais and regular team building (in the form of workshops). In 2019, Hanslab plans to extend its social front amongst the staff and create a well-balanced working environment.

2019 & BEYOND

As 2018 draws to a close, the staff of Hanslab would like to take this opportunity to wish every individual a safe, prosperous and blessed Holiday Season. Hanslab looks forward to the new year and the challenges/ opportunities it will unfold.

With the year end fast approaching, let us be reminded about the significance and importance of the environment and the world we live in. Always remember, if you look after the environment, the environment will look after you. In the words of the famous Albert Einstein: *“If the bee disappears from the surface of the earth, man would have no more than four years to live.”*

Let us do our fair share to protect, preserve and sustain the environment for future generations.

TRAINING/WORKSHOPS

Workshops play a vital role in skills development and training at any company. The staff of Hanslab are qualified Environmentalists and to add to their skills development/ training, Hanslab frequently attends environmental workshops/ seminars. The training seminars for the 2018 year included: 1) ECO Workshop 2) Amendments to the EIA Regulations of 2014 3) EIA Web-based screening tool.

Furthermore, Hanslab had the opportunity to meet with the world renowned philosopher and motivational speaker – M.K. Angajan. Mr. Angajan led a three-day long workshop on self-mastery.

M.K.ANGAJAN SELF-MASTERY WORKSHOP
