

## THE SECOND QUARTER

The second quarter of the year came with exciting opportunities and some staff interaction due to reduced COVID-19 statistics. Since we are back to Level 4 Lockdown, our protocols have been tightened to ensure the safety of our staff and Clients. However, we are still in operation and ready to provide you with cutting edge Environmental Solutions!

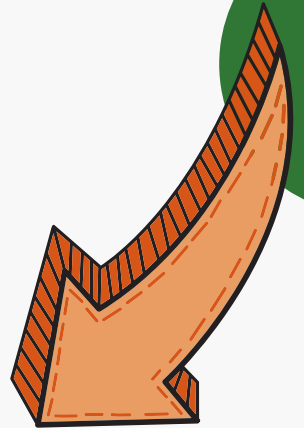

## WHAT IS INSIDE

THE SECOND QUARTER  
WATER MONITORING  
NEW STAFF MEMBER  
FREEDOM DAY  
SAICE BLANKET DRIVE  
WORLD OCEANS DAY  
YOUTH DAY  
WORLD ENVIRONMENT DAY  
HOTDOG DRIVE  
DESERTIFICATION & DROUGHT DAY  
ENVIRONMENTAL PROFESSIONALS DAY  
EARTH DAY  
MPUMALANGA BUSINESS HIVE

## WATER MONITORING:

Hanslab can now add water quality monitoring to our list of services we can offer you. We are able to give our Clients an analysis of the water quality and its potential degradation caused by the proposed development, thus ensuring that we further reduce the impact on the receiving environment. At Hanslab, we are continually striving to improve our services to you!

# NEW STAFF MEMBER

## NOKUKHANYA GASA

Nokukhanya is a Professionally Registered Environmental Assessment Practitioner with EAPASA and holds more than 10 years of experience. She has worked on a range of projects for different sectors and has several achievements under her name.

## WELCOME TO THE HANSLAB TEAM!

At Hanslab, we commemorated the first democratic elections in South Africa on the 27 April 1994 and honouring the heroes and heroines who fought for equality

**FREEDOM DAY**  
27 APRIL 2021

## SAICE BLANKET DRIVE

The team at Hanslab partnered with the South African Institution of Civil Engineering to bring warmth to those in need around KwaZulu-Natal. The blankets were distributed to shelters around the province.

THANK YOU TO THE  
HANSLAB TEAM!

SAICE WINTER WARMTH DRIVE

## WORLD OCEANS DAY

The Hanslab team believe that by informing the public of the impact of human actions on the ocean, developing a worldwide movement of citizens for the ocean will unite the world's population for this cause.

# YOUTH DAY

Showcasing our exemplary youth at Hanslab for #YouthDay2021. We are proud to have these young ladies providing tremendous insight and ambitious ideas, thus allowing Hanslab to grow every day.

SHRIYA NANKHOO

BHAVISTHRA RAMLAGAN

## WORLD ENVIRONMENT DAY

REIMAGINE. RECREATE. RESTORE.

As EAPs in the #builtenvironment field, we are constantly striving to provide environmentally sustainable solutions to our developers. Hanslab is committed to assisting our Clients with steps to ensure a circular approach is taken during any development that impacts the surrounding environmental and our ecosystems.

## HOTDOG DRIVE

Hanslab provided 120 hotdogs to Connected Durban for their weekly distribution. Their aim is to rehabilitate and empower those who live on the streets, with the hope of job creation for them.

## DESERTIFICATION & DROUGHT DAY

RESTORATION.LAND.RECOVERY

The focus of the 2021 Desertification and Drought Day was on turning degraded land into healthy land. It was held on 17 June 2021.

Restoring degraded land comes with many advantages such as: improved economic resilience, job creation and increased food security.

We will build back better with healthy land

# ENVIRONMENTAL PROFESSIONALS DAY

Environmental Professionals Day has been established worldwide on the 15th of April to recognize the diligent work that Environmental Professionals do to create a sustainable world for all living things.

**Hanslab Team salute all Environmental Professionals for your service to our planet!**

**15 APRIL 2021**

**EARTH DAY**  
RESTORE OUR EARTH

Earth Day took place on the 22nd of April 2021. This day highlights major environmental issues such as deforestation, pollution and global warming.

## MPUMALANGA BUSINESS HIVE

Reference: HANSLAB

Reference: HANSLAB

In May we posted an article on the Mpumalanga Business Hive which is located in the eThekweni Municipality within the Mpumalanga region in KwaZulu-Natal.

Mpumalanga forms one of six sub-places within the Outer West planning region.

The proposed site is on the border of the eThekweni Integrated Rapid Public Transport Network (Corridor 6), which suggests increased accessibility to other industrial and business centres and evidence of its ideal location.

Hanslab is proud to provide Professional Environmental Services to aid this project.
